

## Rental park services for hose linings

We take care of your rental park! We assemble your hose lines **up to DN 305 mm / 12"** including the required couplings for suction and discharge hoses employed at submersible pumps or diesel pumps. All hose lines are tested according to the European Pressure Equipment Directive PED 2014/68/EU periodically, repaired or replaced. Of course hose lines are also cleaned.

*We swage hoses up to DN 305 mm / 12"*

### Our services for you:

- Production and development of hose systems (fixed hoses incl. couplings)
- Development of hoses and systems (rubber, plastics, metal)
- Production of rental park hoses
- PE-pipeline production for rental parks, swaged according to your needs
- Pressure tests according to PED 2014/68/EU
- Individual labelling
- Documentation by individual verification, according to EN 10204
- Diverging tests according to your specifications
- Repairs by our testing- and assembly service
- Shipment
- Storage
